# WHO WE ARE

## WE ARE A FAMILY THAT BELIEVES IN USING TRUSTWORTHY NATURAL INGREDIENTS

We started in the Cannabis industry over a decade ago, while being into holistic care we truly weren't taking care of ourselves. We dug into products in our household and realized how poor the ingredients were.

In 2017 we had a baby and then built our first business. Made From Dirt, we specialized in CBD topicals. It was a busy year but Made From Dirt became successful in the Cannabis world.

In 2019 we had our second baby and she had very delicate skin, understanding the benefits of our handcrafted CBD Line, we knew we wanted to make a line that was more welcomed by everyone.

SUN + MOON came to life, a natural skincare line that can ease pain, anxiety, eczema, and so much more!

"There's nothing better than healing people. We thrive on helping others. Our products aid dry skin, pain relief, sleep deprivation, stress, or skin conditions like psoriasis and safe to use head to toe. Safe for all, from the tiniest newborns to adults of all ages."

-**Danielle Matthew**  
Owner, Creator, Mother
